NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
 31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
 32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
 33. *Mr. Philip*—Resolution—That, this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierzchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.

Second Reading Bill 125, An Act to provide for a public Advocate in Ontario. Mr. Swart. To be debated on Thursday, December 1st, 1983.

Ballot Item No. 4

Mr. Cousens—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy. To be debated on Thursday, December 8th, 1983.

Ballot Item No. 5

Mr. Conway—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling. To be debated on Thursday, December 8th, 1983.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That, this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelek, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoję Starzewski.
34. *Mr. Laughren*—Resolution—That, this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That, given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierczalski, Stefan Przybylski, Mirosław Modzelek, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié 1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

tions

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.

34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence according to draw held in accordance with the order of the House passed on October 13th, 1983)

Ballot Item No. 2

Mr. Ruston—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation. *To be debated on Thursday, December 8th, 1983.*

Ballot Item No. 3

Second Reading Bill 125, An Act to provide for a public Advocate in Ontario. *Mr. Swart.* *To be debated on Thursday, December 8th, 1983.*

Ballot Item No. 4

Mr. Cousens—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy. *To be debated on Thursday, December 15th, 1983.*

Ballot Item No. 5

Mr. Conway—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling. *To be debated on Thursday, December 15th, 1983.*

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrezej Szczerba, Władysław Rzeszowski, and Jan Ostojka Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

And that the Address be engrossed and presented to the Lieutenant Governor in Council by Mr. Speaker.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Législature
de l'Ontario

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province’s competitive position in the international marketplace and the corresponding performance of Ontario’s export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierczchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrezej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province’s forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.

22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.

23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.

24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Mr. Ruston*—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierczalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment

after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. *Mr. Rae*—Motion under Standing Order 63 (a)—That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence

of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

What is the overall total expenditure, and the breakdown into the above categories for the four years 1980-81 to 1983-84. By how much does the four year total fall below the \$27.5 million given as the projected total cost of the project in the April 1980 Information Paper, *Mentally Retarded Clients in the Homes for Special Care and the Extended Care Program*. To what extent, if at all, can the shortfall in expenditure be explained by reference to any reduction in the need for development programming which may have been identified in the course of the Tri-Ministry Project's operations. *December 6th, 1983.*

376. *Mr. Johnston*—Enquiry of the Ministry—Will the Ministry provide, for each of the homes for special care and nursing homes accommodating mentally retarded people subject to the Tri-Ministry Project, the following information: (a) the number of mentally retarded people in residence; (b) the number whose capacity to participate in specialized developmentally training programmes has been assessed by the Project; (c) the number so assessed who were found able so to participate; (d) the number for whom individualized programme plans (IPP's) have been completed; (e) the number for whom IPP's remain to be prepared; and (f) the number with completed IPP's for whom the prescribed developmental training has been provided: (i) fully; (ii) partially; or (iii) not at all. *December 6th, 1983.*
377. *Mr. Johnston*—Enquiry of the Ministry—In which nursing homes or homes for special care are service coordinators in place without any other developmental programming funded and implemented by the Tri-Ministry Project. How many mentally retarded people for whom IPP's have been prepared reside in these facilities. How much time has elapsed from the completion of these IPP's to date. *December 6th, 1983.*
378. *Mr. Johnston*—Enquiry of the Ministry—How much has been charged by nursing homes and homes for special care to the Tri-Ministry Project in rental or other fees in respect of office or other space occupied by service coordinators or otherwise utilized for developmental programming initiated by the Project, for each fiscal year since 1980-81. How many assignable square feet of space have been secured in return for these rental or other fees. *December 6th, 1983.*
379. *Mr. Johnston*—Enquiry of the Ministry—What is the total amount paid by the Tri-Ministry Project to owners and operators of private nursing homes and homes for special care, for each fiscal year since 1980-81, in respect of administration fees or other charges related to the establishment and operation of service coordination programmes. How much of these funds were paid to each of the nursing homes or homes for special care in which service coordination programmes are in place. *December 6th, 1983.*
380. *Mr. Johnston*—Enquiry of the Ministry—How much has been expended in total by the Tri-Ministry Project, and in which nursing homes and homes for special care, for each fiscal year since 1980-81, on enhanced staffing programmes. How much of these expenditures have been paid in respect of administration fees. How many nurses' aides or other employees have been

hired by each facility receiving funds for enhanced staffing. How much of the time of such nurses' aides or other employees have been devoted to developmental programming, as distinct from general nursing or personal care, and by what means has such allocation of time been monitored. *December 6th, 1983.*

381. *Mr. Johnston*—Enquiry of the Ministry—How much has been provided by the Tri-Ministry Project in total, and to which nursing homes or homes for special care, for each fiscal year since 1980-81, in respect of capital improvements to buildings, grounds, equipment, etc. On what items have such funds been expended. *December 6th, 1983.*
382. *Mr. Johnston*—Enquiry of the Ministry—How much money has been provided by the Tri-Ministry Project in total, and to which nursing homes or homes for the special care, for each fiscal year since 1980-81, for items other than rental of space, administration fees on service coordination programmes, enhanced staffing and administration charges in respect of such staffing, and capital improvements. In particular, how much has been provided in respect of telephone service, heating and other utilities, transportation and staff other than service coordinators or persons hired with funds allocated for enhanced staffing. *December 6th, 1983.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence according to draw held in accordance with the order of the House passed on October 13th, 1983)

Ballot Item No. 2

Mr. Ruston—Resolution—That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation. *To be debated on Thursday, December 8th, 1983.*

Ballot Item No. 3

Second Reading Bill 125, An Act to provide for a Public Advocate in Ontario. *Mr. Swart.* *To be debated on Thursday, December 8th, 1983.*

Ballot Item No. 4

Mr. Cousens—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy. *To be debated on Thursday, December 15th, 1983.*

Ballot Item No. 5

Mr. Conway—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling. *To be debated on Thursday, December 15th, 1983.*

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston (Scarborough West)*—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
29. *Debated December 8th, 1983.*
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelek, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to

ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. *Mr. Rae*—Motion under Standing Order 63 (a)—That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not

needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation

4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié 2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario (3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié 3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Communica-
tions
entre les
administrés
et les
institutions
de l'Ontario (3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre 4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierzchalski, Stefan Przybylski, Mirosław Modzelek, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. *Mr. Rae*—Motion under Standing Order 63 (a)—That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—“it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership”.
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing “new generation” toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines’ treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario’s water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proclamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.

33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.

34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. *Mr. Rae*—Motion under Standing Order 63 (a)—That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

Mr. Cousens—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

(3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

(3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

(3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierchalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrezej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

36. *Mr. Rae*—Motion under Standing Order 63 (a)—That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

37. *Mr. Kolyn*—Resolution—That in the opinion of this House, the Government, acknowledging the recent federal promise in the Throne Speech to support regional economic opportunities and to develop duty free export zones for manufacturing and processing goods for export, initiate an investigation through the Ministry of Industry and Trade and in consultation with regional development bodies to determine strategic areas in our province in which duty free trade zones would enable Ontario industries to become more competitive in international markets, and following such an investigation, make application with the federal government to establish such zones in Ontario.

Mr. Cousens—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

Ballot Item No. 5

Mr. Conway—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
30. *Mr. Philip*—Resolution—That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.
33. *Mr. Philip*—Resolution—That this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierczalski, Stefan Przybylski, Mirosław Modzelek, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrezej Szczurba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. *Debated December 14th, 1983.*
37. *Mr. Kolyn*—Resolution—That in the opinion of this House, the Government, acknowledging the recent federal promise in the Throne Speech to support regional economic opportunities and to develop duty free export zones for manufacturing and processing goods for export, initiate an investigation through the Ministry of Industry and Trade and in consultation with regional development bodies to determine strategic areas in our province in which duty free trade zones would enable Ontario industries to become more competitive in international markets, and following such an investigation, make application with the federal government to establish such zones in Ontario.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

- s. 17,

of Ontario
legislature
- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

2. Section 19 of the said Charter is amended by adding thereto the following subsection:
- Proceedings
in Ontario
courts
- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.
- s. 20,
amended
3. Section 20 of the said Charter is amended by adding thereto the following subsection:
- Communica-
tions
by public
with Ontario
institutions
- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,
- (a) there is a significant demand for communication with and services from the office in such language; or
- (b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. 19. *Mr. Ruprecht*—Resolution—That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

31. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. *Mr. Conway*—Resolution—That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.

34. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

35. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
37. *Mr. Kolyn*—Resolution—That in the opinion of this House, the Government, acknowledging the recent federal promise in the Throne Speech to support regional economic opportunities and to develop duty free export zones for manufacturing and processing goods for export, initiate an investigation through the Ministry of Industry and Trade and in consultation with regional development bodies to determine strategic areas in our province in which duty free trade zones would enable Ontario industries to become more competitive in international markets, and following such an investigation, make application with the federal government to establish such zones in Ontario.
